

DISTRIBUTION

Tooth Talk with Dr. Mitchell Josephs is distributed throughout the United States by UTN on multiple media platforms. The program is delivered to the majority of radio stations in the United States via ABC Starguide III. In addition to the terrestrial radio distribution system, the program is also broadcast on the Cable Radio Network (CRN) which is heard by over 500,000 subscribers in Southern California, Las Vegas and Minneapolis-St. Paul. The show is also available worldwide via the Internet with a live stream using Windows Media and each week's show is archived on the UTN and *Tooth Talk* websites.
